

## **NPQ Introductory Document**

Forge -TSA works in partnership with Carnegie Teaching Schools' Alliance, who offer nationally accredited leadership development at all levels of the DfE's National Professional Qualifications framework from middle, senior, heads to executive leaders.

Members of our Alliance work closely with Carnegie Teaching Schools' Alliance to provide facilitators for the leadership development programmes who are outstanding school leaders in their own right. Forge-TSA also welcomes opportunities to offer NPQML and NPQSL leadership development programmes on a cluster model basis within our own locality and region.

***For more information regarding the National Professional Qualifications, please click on the link to each programme.***
